Mr Gerald Goldberg
Director of Patent Technology Center 3600
USPTO

your reply of July 26 to my letter of June 2, 2000

Dear Mr Goldberg,

I may thank you for your endeavour to explain me the patent procedure at USPTO, which differs from the remaining Patent Offices.

I would be grateful if you would accept my proposition concerning the statutory period with regard to the mail-delivery time in the future and help me open a deposit account at USPTO. Please read the reason therefor in the attached letter.

You would agree with my opinion that there is a lot of ideas to be patented. I wish you would be happy when watching the enclosed photo displaying my stain-colour painting, which is not yet patented due to lack of time, on wood.

As proprietor and inventor of over 550 patented claims I assure you that one day you use products, based on my patents, in cars, trains, aeroplanes and safety vests. *Three new European Patent*

Thank you very much for your explanations.

Does will be published.

kind regards

Giok Djien Go

Dear Sirs.

May I revise the decision of Mr Gerald Goldberg in page 4 please:

E13	10/08/99	4th OAS confirming the approval on the amended Claims and Abstract (E10, E11)	USPTO
E14	10/17/99	Fax disc'ing no objection of British Patent Office to the translation (E21)	to Morrow
E15	10/29/99	Fax to show of how to amend the Description	Morrow
E16	11/04/99	Amended description faxed to Morrow's Office	Go to Morrow
E17a-c	11/05/99	Amended Description faxed to Morrow's Office responsive to Morrow's Fax	Go to Morrow and Morrow to Go
E18	11/05/99	Registered submittal of the amended Appl. (Description, Claims and Abstract)	Go to Morrow

I did have responded, *within the deadline of Nov. 8*, to the 4th OAS (Office Action Summary) of Oct. 8, 1999, listed as E13 ref. to above-mentioned Table of Chronological Enclosures, by faxing the statement of British Patent Office, listed as E14, on Oct. 17 and the amended Description, listed as E16 and E17a-c, on Nov. 4 and 5. Furthermore, I submitted the amended Appl. (Description, Claims and Abstract) on Nov. 5. *Beyond doubt, the 2nd submittal was within the deadline of Nov. 8, unfortunately, delivered to USPTO by mail on Nov. 9.*

His letter dated July 26, 2001 was delivered on Aug., 2. However, the letter of Mr Morrow dated Aug., 1, in which a three-month statutory period is set, was delivered on Aug., 25. If the statutory period were valid for one month, response thereto could never be submitted in time! This long mail delivery for 24 days happened for the second time. At the first time I phoned Mr Pedder to express my objection thereto.

European, German, French, British and other Patent Offices reckon on the mailing day of submittals because *postal service can be on strike*. May I make you a proposition that in the future a statutory period be extended by the time for mail-delivery back and forth, which usually consumes two weeks. If the mail-delivery takes a very long time, I have to phone and/or fax the examiner or USPTO.

Germany

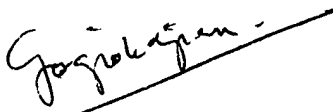

Unavoidable delay resulted from the confusion, when reading the 5th OAS of 04/06/2000, which contradicts to the 4th OAS, the preparation for the submittal to the Board of Patent Appeals and Interferences, the time to wait for a decision, where I had already completed the response, incl. a marked-up copy, thereto, and the common procedure, practised by the above-mentioned Patent Offices, of not interfering therein by forwarding that response.

Herewith, I file in all papers incl. a response to the 5th OAS of 04/06/2000, marked-up copy, Statement of inventor, declaring that new matters; features and figures are included, Notice of Allowability, listing the amended Figs., petition and check of \$ 55, required for filing a petition under unavoidable delay and small entity.

I would appreciate if you would help open an account by forwarding the attached letters to the Account and Financial Dept. and recommending the officers therefor.
Please forward the letter to Mrs. Paulette Kidwell Paralegal.

Thank you very much in advance for your help.

kind regards

Go

Weihnachtsgemälde "MARIA + KIND"

Herrn Dr. Ing Giok Djien GO
Pfahlgrabenstr 45
6270 Idstein - Eschenhahn

Seine Maltechnik bei Verwendung von BEIZEFARBEN unter Berücksichtigung der HOLZEIGENSCHAFT stellt ein NOVUM auf der Welt dar. Zur Realisierung dieses Sujets verwendete der Maler die Diagonalkomposition mit den dominaten Figuren "KIND" und "MARIA" sowie mit der Nebenfigur "DREI KERZEN", die entweder "DREI KÖNIGE" oder seine "DREI KINDER" symbolisieren. Zur Verlagerung der Farbkomposition senkrecht zur Diagonale tragen die DUNKLEN Farben der Bekleidung für das "KIND" bei. Außerdem bilden die Farben (gelb - lila) der übereinanderliegenden Handärmel einen LEICHTEN KONTRAST. Genauso läßt sich der dominante Effekt durch Farbgebungen stärker erzielen:

- Heiligenscheine in gelb und in gelb/grün
- beide Gesichter in mittel grün/schwarz und leicht grün/schwarz

Die lächelnden Gesichter beim Augenkontakt belegen die Aussage zum freudigen Ereignis. Es handelt sich hierbei um das 1. Gemälde der Reihe "Weihnachtsmotiv", die durch die Anfrage, ob der Maler der Fa. Prime Computervision GmbH Gemälde für die Weihnachtsgrußkarten zur Verfügung stellen konnte, entstanden ist.

Einzelausstellungen:

- 19.11.1984 - 03.01.1985 Sparkasse in Letmathe
